Continuation Sheet Attached

Brief Description of Arguments to be Presented:

1. Ito does not disclose "controlling operation of the media source..." wherein "...the controlled operation of the media source is external to the printer..." as recited in claim 1. Ito discloses a printer controlling a switch, not a media source. The switch merely serves as a multiplexer to choose between two potential media sources, a camera or an external video link. A similar argument applies to the language of claim 41.

An interview was conducted on the above-identified application on _____.

NOTE:
 This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEP § 713.01).
 This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
